The wheel

One of the most important inventions is the wheel. It was invented more than 5,000 years ago.

The wheel made it much easier to carry heavy things. People could push or pull simple carts. For thousands of years most wheels were made of wood and metal. Then about 170 years ago, the tyre was invented. It was made of rubber, filled with air. Travelling on wheels was much more comfortable after that.

How many different kinds of wheels can you think of?

Yes or no

- 1-Most wheels were made of glass.....
- 2-About 70 years ago, the tyre was invented.....
- 3-The cars and buses have tyres.....
- 4-The wheel was invented more than 5000 years ago.....

Choose.

Printed books

Long ago, people used to write all books by hand.

The ancient Chinese invented a way to copy texts more quickly by carving words into a wooden block. They put ink on the wooden block. Then they pressed paper on the ink.

Then, over 500 years ago, a German called Gutenberg invented a new kind of printing press. It could print pages much more quickly.

The telephone

The telephone was invented in 1876.

The name 'telephone' comes from two Greek words which mean 'far' and 'voice'.

Do you think this is a good name?

The first mobile phone was invented in about 1980. Ask your family if they can remember when there were no mobile phones!

The television

Television was invented nearly 100 years ago.

But not many people had a television in their home until about 1950. The earliest TV pictures were only in black and white.

1 Robert Plath was an airline pilot in the United States. He had to carry heavy suitcases around very big airports. He hated it!

1 In 1987, he invented a small suitcase on wheels. Now everybody can buy one!

2 Fishermen sometimes used to fall out of their boats and drown in stormy weather.

2 In 1928, Peter Markus invented a new life jacket. It was made of rubber and filled with air. It saved many lives. Now all boats and planes carry life jackets.

3 Artificial legs were very heavy for people to wear and it was difficult to walk, run and swim.

3 In 2013, an Emirati boy called Adeeb Al Baloushi invented an artificial leg that was very light and easier to wear. People who wore artificial legs could now do sports more easily than before.

Did you know you can make electricity from the sun? The sun's rays are very strong, and when the rays hit special solar panels, it changes into electricity.

Fatima Al Kaabi invented a bag that charges lights, mobile phones and other electrical gadgets from solar energy. All the energy for the bag comes from the sun, and it is free! Isn't that amazing?

Fatima is thirteen years old and is from the UAE. Her family loves to go camping in the desert and Fatima used to take her mobile phone with her. There was no electricity in the desert, so Fatima invented a solar bag because she wanted to use her mobile phone. The solar bag makes electricity for fans and lights as well. There were many different kinds of dinosaurs and they were all different sizes. Some ate meat and others ate plants.

Most dinosaurs had four legs, but some had two small front ones, like arms. This made it easier for dinosaurs to catch and kill animals.

This dinosaur is called Diplodocus and it weighed the same as five elephants. It couldn't run fast. You can see in the picture it had a very long neck so that it could eat leaves at the top of trees. It didn't eat meat at all.

Scientists believe that the Diplodocus used its tail to fight.

Khulood's father gave her a new computer game.
 'Digging for Dinosaurs!' said Khulood. 'Brilliant! That is exactly what I wanted.'
 Khulood decided to try her new game. She switched on the computer, put the game in and looked at the screen. A strange icon appeared. Khulood clicked on the icon and suddenly POOM!
 'Where am I?' asked Khulood.
 'You're in the computer game *Digging for Dinosaurs*,' said the girl next to her.
 'We have to look for an old dinosaur bone.'
 'Here's one!' said Khulood. She picked up a golden bone that was hidden under a stone.
 Suddenly they heard a noise behind them. The ground began to shake. They heard a dinosaur roar.
 Khulood and the girl hid behind a huge stone.
 'Look!' shouted Khulood.
 There was the same icon that was on her computer.
 Khulood touched the icon. POOM!

Brilliant bones and marvellous muscles

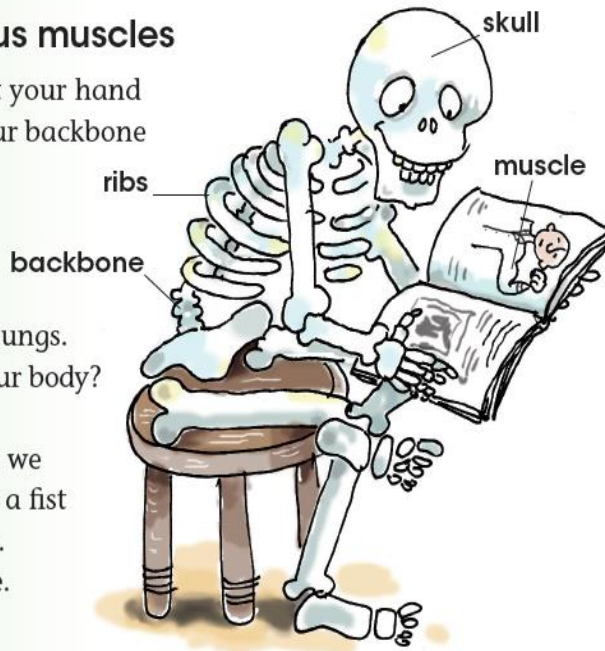

Our bones give our body its shape. Put your hand on your back. Feel your **backbone**. Your backbone helps you stand up and move.

Inside your head is your **skull**.
Feel your skull.

Now put your hands on your **ribs**.
Your rib bones protect your heart and lungs.

What other bones can you feel in your body?

How can we stay healthy?

To keep your body healthy and strong, you need healthy food to eat and clean water to drink. You need plenty of exercise and plenty of sleep. You need to keep clean.

Healthy food

We need food to make our muscles strong – foods like eggs, beans, fish, meat, milk and cheese. Fruit and vegetables are also important.

Sleep

Your bones grow while you sleep. Your brain and body need to rest. Children need to sleep for about 10 hours each night.

Exercise

Exercise makes strong bones and muscles. There are many ways to exercise, for example: walking, running, climbing stairs and playing ball games.

Try this!

Balance! Stand on your left leg. Hold your right foot. Bring your heel close to your body. How long can you stay in this position? Swap legs. Was it easier to balance on your right or your left leg?

A fair solution - part 2

The judge of the town was Nasreddin. Nasreddin was clever and wise. He listened to the problem and thought for a minute.

'You must pay for the smell of the food,' Nasreddin said to the poor man. 'Please give me your money.'

The poor man gave Nasreddin a small bag of **coins**.

'This is all I have,' he said in a sad voice.

Nasreddin took the bag of money and held it next to the rich man's ear. He shook it so the coins jingled.

'Can you hear the sound of this money?' Nasreddin asked.

The rich man nodded.

'Good,' said Nasreddin. 'That is your payment.

This poor man enjoyed the smell of your food.

Now you have enjoyed the sound of his

money. That is a fair solution.'

Nasreddin handed the bag back to the poor man. 'You are free to go,' he said.
