## Introduction to Access Course

This Access Course is designed to build upon a foundation of English literacy and language skills. Students will focus on basic language and grammar skills that they may have missed out on due to a low level of literacy so that they may have a meaningful educational experience. The aim is that students will be able to achieve success and progress once they have mastered the required skills.

The Access Course will:

- develop and extend listening, speaking, reading and writing skills.
- develop and build on language structures.
- develop and build on vocabulary.
- explore global and local topics.

## Introduction to Access Book

The Access Book was developed to build upon a foundation of English literacy and language skills. It is important that the book is supplemented with activities that will engage and involve students in their learning. It is essential that students are encouraged to become more responsible for their own learning by assisting them to succeed in building on their current literacy skills.

The book follows lesson patterns over the term, but teachers are not limited to using the activities in the book. Each lesson should be adapted to the needs of the students in a particular class. Perhaps some will achieve particular skills more readily than others, so teachers need to be flexible and prepared to establish differentiation and peer support in their classrooms.

The features of the Access book include:

1. **Variety of skill-related activities** – for explicit focus on different skills
2. **Key structures and vocabulary box** – makes expectations clear for students and teachers
3. **Explicit grammar practice** – focusses on essential grammar structures that may not have been previously understood by students
4. **Group and pair work opportunities** – encourages cooperative learning and communication
5. **Focused and simplified tip boxes** – encourage students to use specific reading and writing skills to achieve a higher fluency in language
6. **Level-appropriate language** – makes the content more accessible to the students so they have more chance of success in their learning
7. **Review** – includes lessons that focus on reviewing content from the unit to reinforce learning

**Explicit vocabulary practice**

## Lessons

Lessons appear in the order of listening and speaking followed by reading and writing. Additionally, each unit contains two language focus lessons which focus on the rules of language and allow students to develop their use of language.

### Language Focus

New language can be presented in many ways. Teachers can decide what works best for their students depending on students' level of knowledge and their individual needs. Many of the **language focus lessons** in the Access book facilitate the following approaches: PPP (presentation, practice and production), TTT (test, teach, test) and guided discovery. Lessons can be adapted, and supplementary activities can be used.

#### PPP

This is a widely used approach with clear language aims. The three stages are presentation, practise and production of the target language.

**Present** This stage is used to introduce the target language. Teachers can use tools such as visual aids, questions, or drills to present the language. The goal of this stage is to present information, not facilitate immediate understanding.

**Practice** Students carry out controlled practice activities such as question and answer, read and repeat or role plays. Clearly defined correct and incorrect answers allow students to build an understanding of how language is used.

**Produce** Students can practice freely and explore the language. Freer activities include open-ended questions and writing activities. Emphasis is placed on fluency more than accuracy.

#### TTT

With a TTT approach the aim is to find out what students do and do not already know. It is likely that learners will often have had prior exposure to the target language. It is beneficial to explore the extent of their knowledge to shape the lesson. Teachers should be prepared to adapt the lesson depending on the outcome of the test stage.

**Test** Start with a test to find out what students can and cannot do. This usually involves a form of controlled practice using the target language such as completing a text with the correct verb form. Students are monitored to inform the next stage.

**Teach** Teachers clarify the meaning, pronunciation and form of the target language. The test stage is used to inform the extent and coverage required in the teaching stage. For example, if students are able to complete a gap fill activity with the correct past simple verb forms but struggle with negative forms, then more time should be spent focussing on negative forms. It is important to do what the students have shown they need.

**Test** The next test stage is controlled practice similar to the first stage. Students should now be able to do the test stage as a result of the teach stage.

**Practice** Students practice the language through freer practice tasks to develop fluency.

## **Guided discovery**

Guided discovery is an active approach to learning that can be implemented at any level. Students are exposed to language first. They then use inference to understand the meaning. This is then followed by learning explicit rules and practise.

- 1** Expose students to the language through examples. Examples in context are most effective as they facilitate understanding. This can be carried out through reading and listening texts or using visuals like photos.
- 2** Teachers guide observation of language through guided questions or activities (gap fills, matching examples to rules, etc.). Activities and questions should draw attention to language and allow students to hypothesise, compare and contrast.
- 3** Teachers use the information from 2, to state or elicit the rule from students.
- 4** Apply the rule in practice tasks of varying difficulty. Activities can move from more controlled activities (e.g. gap fills or matching activities) to freer practice (e.g. open-ended discussion questions or writing tasks).

## **Key Aspects**

Language focus lessons are presented in a logical manner to facilitate the teaching of meaning, pronunciation, form and use or application. Meaning addresses the meaning of the language and/or its meaning in the context in which it is used. Form refers to the visible and audible parts of language. Use is connected to meaning and refers to when and why the language is used. Teachers should use the lesson content as a guide for the extent of coverage required for the key language structure being taught. Knowledge of every aspect is required to fully understand a structure, and this will happen over time.

## **Considerations**

It is important to remember that students do not learn structures one at a time, but with repeated practice and exposure over time, they will improve gradually. It takes time to master all aspects of a structure. Students at a beginner or lower level are more likely to rely on their native language to inform their understanding of English. Therefore, teachers should try to anticipate potential errors or misunderstandings in advance.

## Activities

### Picture brainstorm

- Provide students with a visual and ask them to brainstorm words about the visual.
- The best visuals to use for picture brainstorms are those with many different objects that relate to a single scene or topic.
- Provide words for students who are not able to find their own words, or provide words to start the activity.
- Provide students with possible categories for the words or ask them to come up with their own categories.
- Next, let students complete a 'fill in the blank' activity with sentences about the visual and the words from their brainstorm - sentences prepared by teacher.
- Students make their own 'fill in the blank' sentences using the words from the brainstorm and swap these sentences with others to complete.

### Speech bubbles and Think bubbles

- Provide students with images of people or other characters and students work in pairs or small groups.
- Ask students to create think or speech bubbles for the people or characters in the visual.
- Provide students with laminated speech or think bubbles and let them use dry wipe pens to fill in the bubbles.
- Scaffold the activity by adding sentence starters to the bubbles.
- Students act out the conversations or thoughts of people or characters.
- Group some of the images and see if students can link and connect conversations and thoughts from their visuals.
- With carefully chosen visuals students develop short narratives from a range of visuals.

### Draw the picture

- Describe a visual to the students and they draw what they understand from the description.
- Students can also work in pairs. Student A describes the visual and student B responds by drawing.

### Match the description

- Provide students with a set of visuals and matching descriptions.
- Students work in pairs. Student A describes the visual, and student B identifies the matching description.

### Make questions

- Provide students with visuals and flashcards with the words: *what, why, who, where, when, why, how*. Ask them to make questions about the visuals.
- Place a stack of visuals and flash cards face down on the table. Students pick up a visual and flash card to make questions.
- Teacher can provide question starters for this activity.

### Compare and contrast

- Provide students with two visuals and students work in pairs or small groups.
- Students develop sentences about the visuals to identify similarities and differences.
- The teacher provides sentence starters or sentence frames as scaffolds.

### Make a story

- Provide students with visuals and ask them to make a short story about the visuals.
- Alternatively, ask students to take photographs or bring photographs and then make stories.
- Students could also join visuals to make a story or combine their stories.

### Picture categories

- Provide students with a wide range of visuals and ask them to categorise the visuals and name the categories.
- Alternatively, provide students with categories and ask them to categorise the images. Ask students to explain why they think the visuals belong to the given categories.

### Word sort

- Students sort words into different categories provided by the teacher. Categories can range from topics, word types, etc.
- Next, students make their own classification for words.

### Sentence sort

- Students sort sentences into categories provided by the teacher. Categories could range from topics, tenses, sentence beginnings, etc.
- Students make their own classification for sentences.

### Definition, word and picture match

- Provide students with pictures, words and definitions.
- Students match the word definitions and pictures.
- Students work in a small group of three. Each student has either the words, definitions or picture. Students show, describe or read their cards, and other students find the matching cards.

### Word web

- Students write a word in the centre of the page.
- Students could write the meaning, synonym, antonym, definition or draw a picture of the word in the other parts of the web.

### Vocabulary foldable

- Provide each student with a copy of a blank foldable. Students fold the page in half horizontally and snip on the dotted lines to create five flaps.
- Students open the large flap and write the word. They then open the other flaps and write definitions, sentences, symbols or make drawings to help them remember the word.

--	--

### Memory game

- The teacher writes all the words from a specific topic on the board. Students should be familiar with the words used in this activity.
- Students study the words for three minutes. The words are covered or erased.
- Students write down all the words they can remember.
- The same activity could be repeated using sentences.

### Personal dictionaries

- Students create their own dictionaries using pictures, symbols, etc.
- With guidance from the teacher, students categorise the words in alphabetical order, according to the topic or subject, sounds, morphological structure, etc.
- They could also draw a picture next to each word or add a language feature.

### Who has the Word?

- Provide students with a selection of focus vocabulary words on cards and a set of questions which includes all the words. The questions read: *Who has the word elephant? Who has the word camel? Who has the word gazelle?* etc.
- Students work in small groups.
- The selection of word cards is divided equally amongst the students.
- Students place the question cards face down in front of themselves. They turn over their word cards for all to see.
- Students take turns to pick up a question card and read it to the whole group to hear. The student who has the word responds by saying, *'I have the word ....'*

### Sentence Building

- Provide students with chopped up sentences related to the language and content of a topic.
- Students build the sentences.

### Masked Text

- Mask a text by covering most of the words in the text.
- Expose some key words of phrases only.
- Ask students to make predications from the words or phrases they can see.

### Board games

- Provide students with a simple template of a board game.
- Students use the content of a simple story, text or theme to make a board game.
- Students make questions and answer keys for the game and swap games with peers.

### Word wall

- Display all key vocabulary and language for students to access.
- Allow students to add words or language to the wall.

### Role play

- Provide students with simple dialogues to perform.
- Support students to write their own dialogues or short plays to role play.
- Students choose characters from a story or parts of a story to present.
- Allow students to use puppets or other props.

**What's on the menu?**

- Make a 'buffet' of words, phrases or pictures. Place these on paper plates.
- Students choose from the 'buffet' and make sentences, role plays, short dialogues, etc., using the 'food' from the 'buffet.'

**What's in the bag?**

- Place objects in a cloth bag.
- Students take turns to feel and guess the object.

**Book walk**

'Walk' through the book before reading. Ask students questions about the cover - what they see, what they think the story or text will be about, etc. Implement various reading strategies to support students' understanding of a text.

- Make connections – activate prior knowledge of students.
- Make predictions – support students to make predictions about the text. Ask questions such as: '*What do you think happens next?*', '*What do you think the character likes?*', etc.
- Get students to activate all their senses – ask students questions such as: '*What do you think when you read this? What do you smell when you read this? What do you hear when you read this?*'
- Support students to ask and answer questions before, during and after reading. Use question cards: (*what / who / why / where / when / how*).
- Encourage students to retell and paraphrase what they read. Use words such as: '*first, later, next, after that, sometime after, then*'. Do not just retell and paraphrase entire stories. Use this strategy for paragraphs and sections of a story or other text.

<b>Lesson Plan</b>		<b>Grade: 5</b>
<b>Teacher:</b>		<b>Subject:</b> Access English
<b>Unit: 6</b>	<b>Lesson: 4</b>	<b>Date:</b>
<b>Objectives:</b> ✓ To identify the features of an invitation and order sentences to create an invitation to a friend		
<b>Starter</b> As the emails on the first page are about a trip to the UK, ask students to find the UK on a map and elicit what they know about it. Use pictures to show what it is like (e.g., weather, buildings, etc.).		
<b>Main Activities</b> ➤ Activity 1 Read: 1. Direct attention to the email from one student to another. Elicit the names of the sender and the recipient. 2. Draw attention to the start and end of the email, highlighting the words used in the greeting and sign off. 3. Ask students to read the email to find out why Naseer is writing to Saeed. <b>Feedback:</b> Elicit or draw attention to the parts of the text that reveal the answer. Circle the question Naseer asks Saeed. ➤ Activity 2 Read: 1. Draw attention to the second email. Ask who the sender/writer is this time (Saeed) and ask students how they know. Elicit the greeting and sign off. 2. Ask students what they think Saeed will say in his reply. 3. Students read the email to find out what his mother and father say regarding the invitation to the UK. <b>Feedback:</b> Draw attention to the part of the text that reveals the answer. ➤ Activity 3 Read: 1. Students work in pairs to put the words in the correct order to make sentences. Explain that sentences come from the emails. <b>Feedback:</b> Early finishers can find the matching sentences in the emails. Ask students which sentences they would use in an invitation and which might go in a reply. ➤ Activity 4 Read: 1. Explain that students are going to make their own invitation using the sentences in 4. 2. In pairs, students use the emails on the first page as a guide to help them order the sentences from 1-4. <b>Feedback:</b> Monitor and provide support where needed. ➤ Activity 5 Write: 1. Ask students if they ever invite friends or family members to their house (e.g. to study or have a family meal.) 2. Students choose a friend or cousin to invite to their house in a fictional email. 3. Explain that students can use the sentences from 4 to create their email by writing them in the correct order. 4. Ask students if there is anything else they could say in their invitation such as 'How are you?' Elicit ideas. 5. Students write their emails. <b>Feedback:</b> Monitor and provide support where needed. Students can swap their writing and check for correct punctuation using the tip box for help.		
<b>Plenary</b> Cut out sentences from an invitation and give one to each group. Instruct groups to line up in the correct order to make an invitation. Each group then reads aloud their sentence from the first to the last line.		
<b>Differentiation</b> Students experiencing difficulty can copy the sentences from 4 . Students who finish early can check their own or each other's work with a check list provided by the teacher.		

<b>Lesson Plan</b>		<b>Grade: 5</b>
<b>Teacher:</b>		<b>Subject:</b> Access English
<b>Unit: 6</b>	<b>Lesson: 7</b>	<b>Date:</b>
<b>Objectives:</b> ✓ To understand and produce the past form of 'be' in the context of weather		
<b>Starter</b> Provide groups with pictures of different weather scenes and ask them to name the weather in each picture.		
<b>Main Activities</b> ➤ Activity 1 Talk: 1. Review weather vocabulary if necessary. 2. Ask students to name their favourite weather and allow time for students to share their preferences with members of their group. <u>Feedback:</u> Ask students to provide reasons for their answers. ➤ Activity 2 Listen: 1. Explain that students are going to listen to a boy called Omran talking about the weather on his holiday. 2. Listen to the audio and ask students where Omran was. 3. Ask students what kind of weather Omran likes. <u>Feedback:</u> Listen and pause at the answer. ➤ Activity 3 Listen: 1. Ask students if they remember what the weather was like on Sunday (sunny) according to Omran. Draw attention to the line between the sun and Sunday. Ask students if this is the correct answer (yes). Listen and check if necessary. 2. Students listen again and match the weather pictures to the correct day. <u>Feedback:</u> Play the audio again, pausing at the correct answers. ➤ Activity 4 Listen: 1. Before starting Activity 4, draw attention to the language tip box. 2. Use an example of the weather from the previous day to demonstrate the language. E.g., Yesterday was sunny. It wasn't rainy. Then ask students how they felt. E.g., We were warm. We weren't cold. 3. Write the examples on the board, leaving out the verb <i>to be</i> . Ask students to use the tip box to help them complete the gaps. 4. Draw attention to Activity 4 and instruct students to read the sentences about Omran's family holiday.
