Hello my name is Saeed. I live in a big eco house with my family. It has big windows. It has solar panels on the roof. Solar panels are made of many solar cells, which are made of silicon. The panels should be connected. As the sun releases sunlight, the panels can use it to generate electricity. I feel that solar panel is the most important scientific invention because it can protect our environment. I love it because we use little electricity in our house. It is safe and healthy because it reduces the carbon footprints. My parents are satisfied because they can save a lot of money.

EXAMPLE Saeed doesn't live in a big villa.

T F

11. Saeed's house has solar power next to the door.
