First-Term Final Mock Exam (1)

Reading (1)

10

Read the text below and answer the following questions.

I am Mohamed. I am Emirati. I am in grade six. When I grow up, I want to be a pilot because I love planes. My dad says that you have to be good at maths and science to be a pilot. That's OK because I'm quite good at Science but I'm better at Maths.

I have been on a plane twice now and I really love flying. I'm braver than my dad though. He can't stand heights and hated it when the plane took off and landed. For me, it was the opposite. I didn't mind at all! I prefer flying to any other way of travelling.

I remember the first time I saw a plane, I looked at it in amazement. I was only four years old and I thought it was a metal bird flying in the sky. And I remember the feeling of excitement the first time I went to an airport and saw the planes close up – they were so huge and powerful and I couldn't wait to get in one!
