Back to School

Hello students,

Welcome back. I hope you had a nice holiday and are ready to work hard. I want you all to do your best this term.

First, think about what you eat. You should eat healthy food. If you eat fish and vegetables, your brain and your body will get the vitamins they need to be strong and work well. People shouldn't eat sugary foods like cake but eating a little bit of dark chocolate is okay. That makes me happy, because chocolate is my favourite food.

I want you to work hard at school, but you should also have fun. You can join after school clubs. You can play football on Mondays and basketball on Wednesdays. Or, on Thursdays, you can do French or painting. Mr. Yousef has a homework club every Sunday, so you should all be able to get your homework finished on time. To sum up, I want you to work hard at school this term but have lots of fun too.

All the best,

Principal Saif

The First Time

[A]

It was 2 years ago when I first started to take photos. It is a good activity for me because I like being outdoors. In the beginning I was frustrated because the photos were not very exciting but now I take exceptional pictures. Last year I received an award for a photo I took. I was extremely proud. The photo was of the desert and it was very beautiful. My goal is to have one of my photos published in a newspaper. That will be amazing!

[B]

I've wanted to paint for a long time but I tried it for the first time last year. I'm hopeless at playing football or basketball, and I can't stand activities like going on a rollercoaster because they are too scary. I prefer painting because I like to be quiet and I'm good at drawing. I feel very proud and satisfied when I finish a painting. My favourite painter is Picasso. He uses lots of different colours in his paintings.

[C]

I played football for the first time yesterday. It was a lot of fun but I was not very good at it. All the other players had special football boots that looked really good. I want to get some for the next time I play. My friend got a goal. He was extremely happy. I felt frustrated with how I played. I need to play much more, then I'll get better, I hope!

He was afraid of older boys during this time and often felt scared.

After leaving school he had several different jobs. During this time, he learned to fly an airplane. He got an award for bravery because he helped people in the war.

His most famous book, *Charlie and the Chocolate Factory*, was published in 1964. It is still very popular. Since then Roald has written lots of books for children and some for adults.

A — 365 Days

365 Days is an exciting film for all ages. It's about a family travelling around the world on a boat for a whole year. The parents and their two children see sharks and find buried treasure on a desert island. There aren't any special effects in this film because it's a true story. Some of the things the actors say during the film made me laugh so much.

B — Jake's T-Rex

Jake's T-Rex is a science-fiction film about a boy who loves his toy dinosaur. One night, Jake dreams his dinosaur is alive! At first, Jake doesn't like the T-Rex because it does dangerous things. By the end of the film, they're best friends and it's heart-breaking when they have to say goodbye before Jake wakes up. The film has excellent special effects, but it's quite silly. I don't think adults would like it much.

C — Help!

Help! is a great film about a man called George who wakes up on an island, and can't remember how he got there. For some time, George doesn't think anyone lives on the island until he sees a scary man following him. The film is about how George finally escapes from the unusual island. Becoming Healthier

My name's Ali and I live in Dubai. Recently, I've made some changes to have a healthier and more active lifestyle.

One day I'd love to cycle or run to school, but maybe when I'm fitter. For now, my dad drives me there and picks me up. After school, I walk for at least an hour. I enjoy walking on the beach, at the park or around the garden. My favourite walks are always by the sea. In the evening, my brother and I are allowed to play computer games. My brother always plays, but my father is surprised that I never play them – not even with my brother.

I always eat healthy food at school and at home I eat well too. Before, when I went to restaurants with my family, I ate unhealthy food like pizzas, burgers and ice-cream, but not any more. Now I try to eat lots of vegetables, but not too much fruit because there's a lot of sugar in it.

Sleep is also important. Before, I went to bed too late and only slept five hours a night. Now, I try to go to bed early enough so I don't feel tired when I wake up at 6am. Each night, I'm getting eight hours of sleep and I feel great because I have more energy.

Example: How does Ali travel to school?

A on foot

B by bike

C by car

7. Where does Ali prefer walking?

A in the garden

B near water

C in the park

Helen Keller was a woman from a small farm town in Alabama, United States, who taught the world to respect people who are blind and deaf. Before Helen was born, society did not understand blind and deaf people very well and there were very few opportunities for them to get a good education. It was very difficult for them to be independent and have a job. They often had to have help from other people to care for them throughout their lives .

Helen's mission came from her own life, when she was 18 months old, she was extremely ill, and she lost both her vision and hearing. It was like entering a different world, with completely new rules, and she got very frustrated.
