Inference Question (2 marks)

How does the use of technology influence the way people celebrate cultural traditions, and what are the potential effects on mental health?

The integration of technology has both positive and negative impacts on cultural traditions and mental health. On one hand, technology facilitates the exchange of cultural practices, allowing people to share their traditions with a global audience, which fosters understanding and respect. This exchange provides an opportunity for people to learn from each other and celebrate diversity. However, technology can also challenge traditional customs by reducing face-to-face interactions, which are crucial for maintaining strong personal connections and mental well-being. While technology offers tools to support mental health, such as apps for managing stress or anxiety, excessive reliance on technology may lead to social isolation, highlighting the need for a balance between virtual and real-world connections

love for nature had only grown. He often found himself on weekend hikes, searching for new places to discover, far from the busy streets of the city. One Saturday afternoon, he met a group of hikers at the trailhead who were excitedly planning their route. John listened to their conversation and felt a sense of belonging as if he had found a group of like-minded individuals who shared his passion for the natural world.”

Question 1:

What can be inferred about John’s feelings towards nature and outdoor activities based on the text?

Answer with Full Sentence:

Question 2: Justification

Question:

What details from the text support your answer to the previous question?

Answer with Full Sentence:

Justify your answer by providing specific details from the text below.

Inference (2 marks):

John has a deep love for nature and outdoor activities, which is an important part of his life.

Justification (3 marks):

The text describes how John spent most of his childhood outdoors, running through fields and exploring the forest. As an adult, his passion for nature is still strong, and he continues to enjoy hiking and discovering new places. His sense of belonging when meeting other hikers further shows that nature is a significant part of his identity.
